

Sustainability Progress Framework (SPF)

1710 Member update call
October 17 2017

Agenda

- Update on choice of indicators
- Reporting tool
- Tests to end of year. And report on this

Need

- See where we are as a **sector**, in a common way
- See where we are **individually**, in a common way
- Guided questions then on **why** and **how** to change

PROSPERITY

- % increase in profit (impact)
- % improvement in asset basis to cushion farmer and worker (impact)
- % improvement in sustainable purchases by buyer (outcome)
- % increase in sustainable purchases by buyer (outcome)
- productivity improvement to optimal target (outcome)
- % meeting agreed quality parameter in country (outcome)
- Reduction of cost per kg to optimal cost (outcome)
- % meeting agreed quality parameter in country (outcome)
- Increased share of FOB price to farmer (outcome)
- Increased access to finance (outcome)
- Increased diversification (outcome)

WWW.GLOBALCOFFEEPLAT

CONSERVE NATURE

Product Environmental Foot. reduction (impact)

% area of deforested, (could be remotely checked) (outcome)

% water use reduction (outcome)

% reduction in pesticide/ agrochemical usage (outcome)

Optimised fertiliser application based on soil analyses (outcome)

% organic matter in the soil (outcome)

% reduction in energy use (outcome)

Area set aside for conversation (outcome)

% reduction in Green house gas (outcome)

WWW.GLOBALCOFFEEPLAT

IMPROVED LIVELIHOODS

% above national poverty lines (Impact)

% reduction in workplace accident (outcome)

number/ % of children in form of child labour (outcome)

number/ % of workers in form of forced labour (outcome)

% increase of workers earning above minimum living wage (outcome)

Attendance and active enrollment to school, disaggregated by boys and girls (outcome)

Number of Days Without Sufficient Food (outcome)

6

list

Improved livelihoods		
5.4%	above national poverty lines	(impact)
4.5%	increase of workers earning above minimum/ living wage	(outcome)
4.4	Number / % of children in form of child labour	(outcome)
4.2	Number of Days Without Sufficient Food	(outcome)
3.8	number / % of workers in form of forced labour	(outcome)
3.7	Attendance and active enrolment to school, disaggregated by boys and girls	(outcome)
1.9%	reduction in workplace accident	(outcome)

list

Prosperity		
7.3%	increase in profit	(impact)
6.8	productivity improvement to optimal target	(outcome)
4.8	Reduction of cost per kg to optimal cost	(outcome)
4.8	Increased share of FOB price to farmer	(outcome)
4.7	Increased diversification.	(outcome)
4.4	Increased access to finance	(outcome)
4.3%	increase in sustainable purchases by buyer	(outcome)
4.1%	improvement in asset basis to cushion farmer and worker	(impact)
3.5%	meeting agreed quality parameter in country	(outcome)

list

Conserve Nature	
7.3% area of deforested, (could be remotely checked)	(outcome)
6.2 optimised fertiliser application based on soil analyses	(outcome)
6% water use reduction	(outcome)
5.8% reduction in pesticide/ agrochemical usage	(outcome)
5.5 Product Environmental Foot. reduction	(impact)
5% organic matter in the soil	(outcome)
3.7 Area set aside for coservation	(outcome)
2.7% reduction in Green house gas	(outcome)
2.5% reduction in energy use	(outcome)

Detail methodology

- Each indicator has detail
- Members can contribute to refinement of this
 - Currently based on what is available

Reporting tool

- Facilitating Reporting
- Aggregating results

Reporting tool

A screenshot of a web browser displaying the Global Coffee Platform reporting tool. The browser's address bar shows the URL 'https://service.ki-ag.com/gcp/'. The page has a red header with the text 'Sync filter: World' and navigation icons. The main content area features the 'GLOBAL COFFEE PLATFORM' logo and a map of a region in Colombia. The map is overlaid with several circular heatmaps in blue and yellow, and red location pins. A pop-up information box is visible over one of the pins, containing the following text: 'Display Name: Mahecha Castiblanco Luis Enrique', 'Farm Name: El Limon', 'Address: 154880 Muzo Isabi', 'Country specific ID: 1548000177', and a 'More details' link. The map includes standard Google Maps controls like zoom in/out and a street view pegman. The footer of the map area contains 'Map data ©2017 Google' and 'Terms of Use | Report a map error'.

Reporting tool

- To test in the field in Vietnam
- To test with members already having data
- Should be usable for larger community Q1 – 2018
 - Call later in year on testing

Next steps

- Call in a month time but tentative call internal team to update the list
 - This is on a forum

Questions

**GLOBAL COFFEE
PLATFORM**
for a sustainable coffee world

Questions

**GLOBAL COFFEE
PLATFORM**
for a sustainable coffee world

Member calls: Review What is SPF, Who is expected to report on what, link to V2030 Explain step-wise approach 2017 outcomes --> 2030 impact Understand the laundry list of indicators and gather input (supply chain) Make proposal for indicators	West 9-10; East 15.30-16.30 on 07-Jul; 15-Aug;
Member calls: Present beta reporting system, ask for volunteers Explain levels of reporting = supply chain, country/platform, sector	07-Sept; 19 Sept
Member calls: Post GCSC update Reporting, initial results, showcases	17-Oct; 09-Nov; 28-Nov
